4. COMMUNICATIONS

A. Hanover Real Estate Development progress update

Luke Esposito of Hanover gave a report on what has occurred since the last presentation to the Town Board. He spoke about the Sewer/Septic Treatment System advising the design size/capacity has been finalized at 4,000 gallons/day with construction cost of \$650k-\$670k for both the treatment system and new well. The Onondaga County Health Dept confirmed it would be fine with the proposed onsite treatment system; however, their approval is dependent on receipt and review of a permit application and issuance of a DEC discharge permit.

Mr. Esposito also updated the Board on the status of the Historic Preservation Tax Credit, stating that previously they were advised that the building was not eligible for historic designation. Hanover has since provided to NYS Historic Preservation Office new data on the property & building that helped change the building's historic preservation status from ineligible to eligible. Mr. Esposito stated this is good news as it is a necessary step toward Hanover's goal of having the building considered as historically significant and then applying for historic preservation tax credits. Councilor Dwyer asked if historic designation would limit what the Town could do with the property. Mr. Esposito said no.

Mr. Esposito said that Hanover is on track to present the final results of its feasibility study and make its recommendations at the May Town Board meeting.

B. Volunteer Firefighter & Ambulance Worker Tax Exemption

Supervisor McConnell advised that information about the amount of tax exemption was provided by Tax Assessor Sherry LaVancher and should the Town decide to act on this it would need to be done before 2025, and that the percentage can be up to 10%. Attorney Jeff Brown recommended that the Town Board direct him to draft a Local Law to be introduced at the May Board meeting. The Town Board will need to set a service requirement between 2-5 years and the percentage amount of the exemption. Supervisor McConnell will reach out to the Fire Dept. president to get a recommendation as to the number of years of service.

C. Resolution objecting to Governor's proposal to override Local PB & ZBA siting authority

Attorney Jeff Brown summarized the below resolution explaining that the Governor's proposal would allow the State to bypass local planning and zoning board involvement, and more importantly local resident input & concerns via the public hearing process, for development projects involving low-income housing. It is a significant proposal by the Governor and there are detailed implications of this proposed change in law.

Councilor Dwyer inquired if it would be challenged in court if Governor Hochul follows through? Attorney Brown felt that was likely given that the Governor is inappropriately attempting to utilize a legislative process which permits emergency issues of state-wide importance to go through the budgetary process and bypass the regular legislative process.

R-67-23 RESOLUTION IN OBJECTION TO GOVERNOR HOCHUL'S "NEW YORK HOUSING COMPACT" PROPOSAL

The following resolution was moved by Councilor Dwyer and seconded by Councilor Palmer

WHEREAS, Governor Hochul's FY 2024 Executive Budget included the "New York Housing Compact"; and

WHEREAS, the "New York Housing Compact" consists of the "New Homes Targets and FastTrack Approval Act" and the "Transit-Oriented Development Act of 2023"; and

WHEREAS, the aforementioned bills are Article 7 bills in the NYS 2023/2024 budget which due to their inclusion as such eliminates proper legislative process that will make for better legislation; and

WHEREAS, the housing issues outlined in the bill are not of statewide concern and are focused on New York City and the surrounding suburbs and do not meet the level allowing the State to remove Home Rule of zoning; and

WHEREAS, the Governor claims that the "New Homes Targets and Fast-Track Approval Act" is necessary in order to forestall restrictive land use practices that inhibit and limit housing development; and

WHEREAS, as proposed the "New Homes Targets and Fast-Track Approval Act" amends General Municipal Law and overrides the Town of LaFayette land use regulations as adopted in the Town's Zoning Code and consistent with the Town's Comprehensive Plan; and

WHEREAS, the "New Homes Targets and Fast-Track Approval Act" requires the Town to meet or exceed a Residential Dwelling Growth Target or enact by local law two of five "preferred actions" in order to be considered in "Safe Harbor" status; and

WHEREAS, except for Accessory Apartments/Accessory Dwelling Units, the majority of the "preferred actions" require extreme and substantial amendments to the Town of LaFayette

local zoning including but not limited to, no restrictions on minimum lot size, height limits, setbacks, parking and no environmental review, planning board review, and aesthetic review; and

WHEREAS, appeals under the Housing Compact by developers or builders whose applications for creation of housing are denied by a town, will be brought to a new “State Housing Review Board” usurping the Home Rule authority of local land use boards who understand the local community; and

WHEREAS, the proposed amendments would require the new local zoning to be exempt from SEQRA review which would prohibit the study and evaluation of impacts on traffic and roads, impacts on stormwater, impacts due to building on steep slopes, impacts on volunteer emergency services, impacts on police department staffing, impacts of additional school age students and the schools ability to absorb them, increased costs for the necessity additional sidewalks and mobility connectivity, and all standard evaluation criteria typically provided in a generic environmental impact statement; and

WHEREAS, the local zoning laws and land use laws are in place to address matters of public safety and health, which include police, fire protection, public works, density, traffic, school capabilities, parks and recreation and more, all of which local officials are intimately familiar and best suited to access and determine; and

WHEREAS, the State historically and consistently fights wrongful interference by the Federal government in matters which fall under State Rights (federalism), yet this State Budget Housing Compact wrongfully interferes in zoning and land use matters which belong to the local governments under the NYS Constitution; and

WHEREAS, the proposed amendments to Town Law would prohibit municipalities from adopting reasonable and appropriate development regulations to insure the development is compatible with the surrounding uses, such as lot coverage, open space, building height, setbacks, floor area ratios, or parking requirements; and

WHEREAS, the Town of LaFayette shares many of the same goals as the Governor, including having a long history of consistently demonstrating a commitment to providing a wide variety of housing choice and maintaining and strengthening hamlet centers as service and higher-density residential areas; and

WHEREAS, the Town of LaFayette local zoning code provides for clustered housing, accessory dwelling units, and affordable housing; and

WHEREAS, the residents of the Town of LaFayette have had a voice and participated in land use decisions for decades, from the creating and updating of the Town’s Comprehensive Plan, participating in public hearings, and volunteering on Town boards and committees; and

WHEREAS, if the Governor’s Housing Compact is passed as is, or with negotiated changes that still infringe on a town’s ability to oversee and enforce its zoning and land use laws, the residents of the Town of LaFayette will be disenfranchised from their local elected officials, local volunteer boards, and render all of the residents’ inputs meaningless.

NOW THEREFORE BE IT RESOLVED, that the Town of LaFayette implores the Legislature to permanently remove the Housing Compact proposal from the FY 2023/2024 Budget, and future budgets, and engage local governments in dialogue and address our common goals; and

BE IT FURTHER RESOLVED, that bills of this type be removed from the budget as an “Article 7” bill and follow the regular legislative process which will produce better legislation; and

BE IT FURTHER RESOLVED, that NYS environmental laws including SEQRA and a municipality’s Home Rule zoning as defined in the NYS Constitution and General Municipal law should not be limited by any legislation unless that legislation is truly of State wide concern; and

BE IT FURTHER RESOLVED, that the Town of LaFayette opposes the Governor’s Housing Compact and urges the State Legislature to preserve and protect Municipal Home Rule and Local Zoning Powers. **Motion Carried 5-0**
