

2022 FUNDING REQUEST

ONONDAGA COUNTY COMMUNITY DEVELOPMENT

Assistance with completing this FUNDING REQUEST is available by contacting Michael LaFlair at 435-3558.

Use a separate funding request for each project. You are not limited to one project application per year. Projects previously submitted must be resubmitted on new forms. Please answer all questions applicable. Do not submit more than one copy. Please provide a map and photographs of the project site. Please e-mail your application to cd@ongov.net.

Completed FUNDING REQUESTS must be submitted to Community Development by May 6, 2022.

1. GENERAL INFORMATION

Project Name	Stafford Park Playground Equipment Replacement Project		
Project Location	(Attach a map which locates the project. Also locate your project on a copy of the income map.)		
Street Address	2873 US Route 11		
	Lafayette, New York 13084		
Town/Village	Town of Lafayette		
Municipal Contact (name)	William Mcconnell	(315) 677-3674	
		(phone)	
Engineer/Architect	C&S Engineers	(315) 455-2000	
	(name of firm)		
	Mark Chambers		
	(name of contact)		(phone)
Application prepared by	Mark Chambers		
	(name)		(phone)
Census Tract #	158	Block Group #1	
	(refer to enclosed map)		(refer to enclosed map)
Number of Persons/ Households Benefiting	3400		
Public Hearing Held	<u> X </u> YES <u> </u> NO	Date: April 26, 2022	
Resolution Included	<u> X </u> YES <u> </u> NO	Date: April 26, 2022	
Is Project Site Owned by the Municipality	<u> X </u> YES <u> </u> NO		
If no, who owns project site?	_____		
Who will provide long-term maintenance?	Town of Lafayette		_____

2. PROJECT DESCRIPTION

Include exact street locations, number of feet of sidewalks, etc. Example: 1,300 lineal feet of sidewalk on the east side of Chappell Street between Mechanic Street and North Street. Five (5) trees, 4 benches, 800 lineal feet of curbing on Charles Avenue between Katherine and Downer.

The Town of Lafayette seeks funding to assist the Town in providing the Town of Lafayette residence with new playground equipment including work out equipment that will be installed along the walking path in Stafford Park. This equipment will be both used by youth, elderly and handicapped. This equipment will expand the use of the park to a larger venue.

3. PROJECT ELIGIBILITY

This project:

will principally benefit low income persons

will benefit elderly or handicapped

a. LOW INCOME BENEFIT

of houses in project area (or) _____

of low income people benefiting 1,066_____

b. HANDICAPPED OR ELDERLY BENEFIT (explain)

The equipment will allow residence to use the park and exercise while on site.

4. DEFINITION OF THE PROBLEM

Briefly explain the problem this proposal seeks to eliminate. Indicate why, where, and how the problem exists; supply documentation to support your opinions (i.e. surveys, studies, documents, reports, photographs, etc.). Indicate how the proposed project will alleviate the problem.

The Towns current park equipment does not allow for work out equipment along the walking path. Linking this activity at the park will provide added vitality, ensure high usage, and sustain the park and community well into the future. The Town needs grant assistance to make this project a reality.

5. IMPLEMENTATION

Describe your implementation schedule. Funding will be available in early 2023. The project must be completed by December 31, 2023.

A. Construction schedule

It is intended to have the equipment install the summer of 2023.

B. Describe long term maintenance plan, e.g. who will be responsible for snow removal on new sidewalks, etc.

The Town will maintain the equipment as part of the overall park maintenance program.

6. COST ESTIMATES

Provide detailed cost estimates for the proposed project. Community Development cannot pay cost overruns; therefore, your cost estimates should be as accurate as possible. Costs should be based on engineering or architectural estimates. When preparing this data, consider these factors:

- 1. Project should be completed in one phase if possible. If it is necessary to divide the project into phases, each phase should be functional by itself because of the uncertainty of future funding. Funding cannot be stockpiled from year to year;
- 2. Federal Prevailing Wage Rates apply to construction projects over \$2,000;
- 3. Cost estimates should be as detailed as possible;

NOTE: Attach separate page(s) for the cost estimate.

7. BUDGET

Because the total amount of funds is limited, it is recommended that your municipality provide local funds for at least 25% of your project. Chances of a project's approval will be enhanced if there is a local share. If you feel no local share can be provided, please document why that is the case.

a. Total estimated cost of project: \$ 63,000

b. Funds to be provided from other sources:
(list amounts and sources)

		<u>approved</u>	<u>date</u>
		YES X NO	
1. source _____	\$ 13,000	YES X NO	Spring 2023
2. source _____	\$ _____	__ YES __ NO	_____
3. source _____	\$ _____	__ YES __ NO	_____
4. source _____	\$ _____	__ YES __ NO	_____

(note: If funding from other sources has not yet been approved, please indicate when approval is expected.)

Total funds from other sources: \$ 13,000

c. Amount of funds requested from CDD: \$ 50,000

8. Environmental Considerations

If your project is approved, the municipality is responsible for completing the State Environmental Quality Review (SEQR) and submitting the appropriate documentation once the SEQR is completed.

The Community Development Office will complete the federally required National Environmental Policy Act (NEPA) Review.

8. E-mail your application to cd@ongov.net
