

Monthly Report to LaFayette Town Board

LaFayette Advisory Conservation Commission (LACC)

February 3, 2022

Submitted by: Mark Distler, LACC Chair

These are the LACC activities between January 7 and February 3, 2022:

1. **Membership** – No change in membership.
2. **Meetings** – A meeting was held on January 18.
3. **Projects & Programs** - See attached status summary of projects requested by the Town Supervisor and programs selected to build a community conservation culture. Of note:
 - a. At the supervisor's request, the LACC submitted specific recommended edits of the Town's solar farms law (§290-32 (H)) to the Town Attorney for review.
 - b. As the Lead Party of Goal 2 (Preservation of Rural Character) of the 2021 Comprehensive Plan, the LACC drafted a plan to implement five of the 12 action items under that goal this year. It is currently adding team members to each of the five action items (as shown on the attached status summary), then it will launch the initial steps of the action items.
 - c. The LACC collected tree, bench, and plaque vendor quotes to support the Stafford Park Tree & Bench Memorial Program, which is under development and planned to be submitted to the Town Board for approval this Summer. A meeting was held on January 25th with the Optimists' liaison (Jerry Marzo) to review the quotes and decide on further development actions.
 - d. The LACC met with a contractor, qualified under National Grid's MakeReady program, to discuss concepts of an electric vehicle charging station in the library parking lot. The contractor is now beginning a process to develop a cost estimate to provide electrical upgrades and install a pay-for-use dual DCFC (fast-charge) station. This Spring, the LACC is expecting to provide cost and ROI estimates to the Town Board, along with a request to apply for two grants expected to provide 90% of the total cost. This station addresses three action items in the 2021 Comprehensive Plan.
